PUBLIC HEALTH.

Minister in charge: The Hon'ble Sir S. N. Banarji, Kt.

No. 1268 P.H.—*The 25th April 1922.*—Under rule 7 of the Local Authorities' Loans Rules, 1915, as subsequently amended it is hereby notified for general information that the Government of Bengal (Ministry of Local Self-Government) intend to sanction the following application from the Chairman of the Sherpur Municipality, in the district of Mymensingh, for a loan of Rs. 10,000 from Government, bearing interest at the rate of seven per cent. per annum, and repayable in forty equal half-yearly instalments of Rs. 468-4-4 each, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality.
Mymensingh.

In addition to the details required on the reverse, clear information should be given below under the following heads:—

- | | |
|--|---|
| <p>(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the Municipality has taken, or has agreed to take, in order to make good the deficiency.</p> | <p>The general revision of assessment has just been taken up. In order to improve the financial condition of the Municipality and to make special provision for the instalments of the annual repayment of the proposed loan and to reserve the same for the purpose, it has been resolved to enhance the rate of taxation of the personal tax, from Re. 1 to Re. 1-2 per cent. And it is most probable that more than Rs. 3,000 will be increased at the said assessment, which will come into force from the beginning of the next financial year.</p> |
| <p>(b) The reserve of taxation or other possible means of increase in the revenues of the Municipality.</p> | <p>Ditto ditto.</p> |
| <p>(c) A statement of all outstanding loans, specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.</p> | <p>There is no other loan of the Municipality.</p> |
| <p>(d) Any explanations in regard to receipts and expenditure to show the true financial position of the Municipality when such position is otherwise than the ordinary surplus would indicate.</p> | <p>The ordinary expenditure shown in column 19 of this application, for the year 1920-21, shows an excess over the ordinary income in column 11 of that year. It was due to special circumstances, as explained in the remarks column No. 21 of this application, in the reverse. The normal surplus would have been far higher, had not the Municipality been under the necessity of incurring an expenditure of Rs. 2,265 for the two important and essential projects of (1) extending the trenching grounds and (2) establishment of a Muhammadan burial ground. It is therefore reasonable to exclude this amount of Rs. 2,265 in finding out the normal surplus in column 20 of this application.</p> |

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA.

ARMY DEPARTMENT.

SIR,

I HAVE the honour to submit herewith, for the information of the Government of India, a report on the operations of the Waziristan Force for the period 8th May 1920 to 31st March 1921.

REORGANISATION.

2. The despatch by His Excellency General Sir Charles Monro, dated 1st August 1920, dealt with the Mahsud operations up to the dispersal of the Derajat Column on the 7th May 1920.

After the dispersal of the Derajat Column on the 7th May 1920, the system of command and organisation of the Ladha line were altered. By degrees the duties performed by the Inspector-General of Communications and the Line of Communication organisation under him became merged in Force Headquarters and by the 1st May the Inspector-General of Communications and his staff were dispersed, the staff at Force Headquarters being increased to cope with the extra work entailed.

The 62nd Brigade held the section up to Khirgi inclusive, the 68th Brigade from Khirgi exclusive to the Ahnai Tangi, and the 43rd Brigade from the Ahnai Tangi to Ladha which was occupied by the 67th Brigade. The latter Brigade had no responsibilities except for its own protection, so that it was available at all times for offensive action. The distribution of troops after the reorganisation was completed was as given in Appendix 1.

SUMMARY OF EVENTS.

3. During the remainder of May the situation in all parts of the area was quiet, and by degrees the inhabitants of the occupied line began to return to their villages. The blockade was relaxed in favour of those sections of the Mahsuds that had submitted, though it was still enforced against the recalcitrant sections.

This partial raising of the blockade tended towards reconciling the inhabitants to our presence in the heart of the country.

4. On the 25th May Major-General S. H. Climo, C.B., D.S.O., proceeded on leave, and the command of Wazir Force devolved on Brigadier-General W. S. Leslie, C.M.G., D.S.O.

5. During the month of June the Abdullais, under their leaders Musha Khan and Fazl Din, continued to be actively hostile against our occupation.

This activity consisted chiefly of sniping and raiding between Piazza and Ladha but met with little success.

The remainder of the area was quiet except for a raid against Isa Khel on the 1st June by a gang of twenty raiders. This gang was surprised near Gambila, on the 2nd June, by troops from Bannu working in co-operation with the police, and dispersed. The area between Dera Ismail Khan, Bannu and Kalabagh now being quiet, all military detachments were withdrawn from Pezu and other posts on the railway. The inhabitants continued to return in considerable numbers and produced local supplies for the troops.

6. During the first few days of July the sniping between Piazza and Ladha increased, and as it was known that the Abdullais of Makin were the principal offenders, a minor operation against Makin was sanctioned and was carried out on the 10th July.

A column under Brigadier-General G. Gwyn-Thomas, C.M.G., D.S.O., composed of—

No. 6 Pack Battery (British).
2nd Battalion, Norfolk Regiment,
2-41st Dogras,
3-11th Gurkha Rifles, and
1 Company, 34th Pioneers

moved out from Ladha against Makin at 04-30 hours on the 10th July. It met with only slight opposition and by 08-30 hours was in a position to carry out the shelling of the Makin villages. The shelling continued for an hour and a half and considerable damage was done.

The withdrawal to camp began at 10-15 hours and was followed up by the enemy. The two advanced battalions—the 2nd Battalion, Norfolk Regiment, and 3-11th Gurkha Rifles—carried out their retirement very successfully and only suffered 15 casualties. The numbers of the enemy had, however, by this time considerably increased, and after the two advanced battalions had withdrawn, the Mahsuds showed greater boldness and came to closer range. The 2-41st Dogras, who had taken over the duty of covering the withdrawal, now suffered some casualties which caused delay, and the retirement to camp was only completed at 14-00 hours. Fighting during this period was severe

and in some cases hand to hand struggles took place, the 241st Dogras losing in all 18 killed and 41 wounded.

The operation achieved the results aimed at and there was a marked decrease in sniping and in raids in the neighbourhood of Piazha for a considerable time.

7. During August (which was a comparatively uneventful month), some of the sub-sections of the Mahsuds handed in their share of rifles and fine: the attitude of the friendly tribes improved still further, and the local purchase of supplies increased: and it appeared possible, for the first time, that the Mahsuds would provide labour during the winter for the work on the Ladha road.

8. During September the Wana Wazirs became more active.

On the 11th September a party of the Frontier Constabulary were ambushed near Zam Burg losing five men killed and two captured. One of the parties of Frontier Constabulary sent out to deal with the raiding gang met with a reverse, and lost five men killed and thirteen missing. A squadron of the 16th Cavalry was then sent out from Dera Ismail Khan, but failed to get in touch with the raiders. On the 27th September another Wazir lashkar, estimated at several hundred men, surrounded Drazinda and summoned the garrison to surrender. The Frontier Constabulary at Draband and other posts in the neighbourhood were unable to cope with this lashkar and the 16th Cavalry, less one squadron, were ordered out from Dera Ismail Khan and Tank. Marching all night the cavalry arrived at Draband on the morning of 28th September, and at Drazinda on the 29th.

In the meantime, in order to show the beleaguered garrison that help was at hand, two aeroplanes were ordered from Parachinar to Tank early on the morning of the 28th September. One aeroplane crashed on the Tank aerodrome, but the other arrived over Drazinda at 10-30 hours on the 28th and bombed a party of the enemy, inflicted six casualties. The Wazirs withdrew from the vicinity and the arrival of the cavalry next morning ensured the safety of the post.

9. On 20th October Major-General T. G. Matheson, C.B., C.M.G., took over command of Waziristan Force from Major-General W. L. Leslie, C.M.G., D.S.O.

10. On the night of 21st-22nd October a mixed gang of about one hundred and twenty Wazirs and Mahsuds broke into Kaur Bridge Camp, which was garrisoned by one company of the 90th Punjabis.

The casualties in the garrison were as follows:—

Owing to the raiders gaining possession of the telephone station no news of the attack reached Tank or Manzai until after the enemy had withdrawn.

On the 24th October the postal convoy was attacked between Jandola and Kotkai and the mails seized.

On the 27th October the camp of Piazha Raghza was closed down and its garrison was distributed between Sorarogha and Ladha, thus making the stages to Ladha from Jandola three instead of four.

THE OPERATIONS AGAINST THE WANA WAZIRS.

11. It had been intended to operate against the Wana Wazirs during the spring of 1920 to punish the tribe for the many outrages it had been guilty of during 1919.

During the latter year, the Afghans, in order to enlist the assistance of the tribesmen and to embolden them to harry British India, during the Afghan

War, had sent a small detachment to Wana. This contingent consisted of two mountain guns and some Afghan soldiers under Shah Daula, who also raised levies of Wazirs and Mahsuds. These levies were supplied with arms and rations by the Afghans. Later, the Afghan contingent was strengthened by the arrival of Haji Abdur Razag, a well-known anti-British agent of considerable reputation, his son Muhammad Hassan, a B. A. of Lahore University, and a small deputation of Hindustani fanatics from the Black Mountain District.

Throughout the summer the contingent remained in Wazir territory and continued to receive assistance from Afghanistan in money, ammunition and rations. The presence of these Afghan adventurers precluded any real attempt on the part of the Wana Wazirs to approach Government with a view to submission.

The determined resistance of the Mahsuds rendered an expedition against the Wana Wazirs in the spring of 1920 impossible and it was postponed, but towards the end of the summer the Government of India decided that operations against the Wana Wazirs should take place in the autumn unless our terms were complied with, and ordered the concentration of the Wana Column at Jandola. Troops belonging to the Wazir Force were to be assembled by the end of October, and those from other districts in India by the 15th November.

The column consisted of two Infantry Brigades with attached troops under the command of Major-General W. S. Leslie, C.M.G., D.S.O. The detailed composition of the column is shown in Appendix 2.

The Mahsud situation, generally, improved so much that there was little doubt that these tribesmen would not only refuse to assist the Wana Wazirs, but would put no obstacle in our way during the advance to Sarwekai, which was to be the first stage in the advance to Wana. The concentration of the troops from other districts in India was therefore postponed so as to keep the number of troops to be maintained as low as possible, and thereby expedite the collection at Jandola of the necessary supplies and stores.

12. The Wana Wazir maliks were summoned to present themselves at Murtaza on October 10th to receive the terms of the Government of India. The full terms for the Wana Wazirs were a fine of Rs. 40,000, 250 tribal rifles and all Government rifles taken by them since 1st May 1920. These terms were issued to the jirga by the Resident in Waziristan and included a clause to the effect that Rs. 20,000 of the fine, 300 Government rifles and 200 tribal rifles were to be surrendered by a fully representative jirga at Murtaza by the 10th November, failing which our troops would advance on Wana and carry out punitive operations and enforce the full terms.

This clause was not complied with, and the Wazir jirga failed to attend at Murtaza on the 10th November. In consequence, on the 11th November, the bombing of certain selected objectives by aeroplane was commenced. At that time the Wana Wazirs were divided in their intentions, a considerable party wishing for peace and endeavouring to comply with the terms of Government, while a larger party was against compliance. The ruling spirit of this party was the Haji, and it became apparent that no settlement was probable until the Haji and his followers had been forced to leave the country or had been so discredited as to lose their ascendancy. Bombing activity was therefore concentrated on the localities occupied by the Haji.

13. On the 12th November the Wana Column moved forward to Chagmali, which is close to the entrance of the Shahur Tangi. A few sniping shots were fired at the advanced troops, but no casualties were sustained.

Between the 12th and 14th November permanent piquets were erected guarding the Shahur Tangi, and during the operation not a single shot was fired at the troops. The country in the Shahur Tangi is particularly difficult, and it is an eloquent testimony to the success of our dealings with the majority of the tribe that the Mahsuds not only refrained from taking advantage of such favourable country, but were at pains to assist us.

14. On the 15th November the column advanced to Haidari Kach, the only opposition being desultory sniping by a small number of Wazirs, and Sarwekai was reached without opposition on the 18th.

As soon as our advance through the Shahur Tangi to Haidari Kach had been completed, the friendly Mahsuds committed themselves more definitely to our assistance. The Haji had sought to obtain assistance from them for the Wana Wazirs, proceeding himself to Sarwekai in the hope of securing their help. He not only failed in this, but the friendly Mahsuds sent a warning to the Wazirs that they would not allow them into Mahsud country to oppose us. A lashkar of 500 friendly Mahsuds moved to Sarwekai and

informed the Haji that if he did not go voluntarily he would be turned out by force. The Haji withdrew with all his followers, and the friendly Mahsud lashkar occupied the old fort of Sarwekai and held it for us until our troops arrived.

15. At Sarwekai the Wana Wazirs were given an opportunity of reconsidering their attitude before the column made a further advance. The friendly sections made overtures for peace, and began bringing in instalments of their fine, but the hostile sections refused to come in, being bribed by the Haji with gifts of ammunition and money. By the 15th December the total surrenders had amounted to—

- Ruppes 24,406 fine.
- 51 Government rifles, and
- 67 tribal rifles

As the number of rifles fell far short of our demands, the advance to Wana was ordered to begin on 16th December.

16. On the 11th December the forward concentration at Sarwekai of the force which was to advance to Wana commenced, and between the 12th and 15th December forward permanent piquets were established without opposition to distance of some five and a half miles beyond Sarwekai.

17. Leaving the 23rd Brigade Headquarters and two battalions at Sarwekai, the remainder of the column began the advance to Wana on the 16th December. No opposition was encountered until the long and steep descent of the Shina Pal Lar was commenced. Here some hostile parties, estimated at 150, were established in the broken country leading down to Dargai Oba, but were dispersed without difficulty.

18. On the 17th December all available troops were employed on improving the northern road back towards Sarwekai and in constructing permanent piquets for its protection. The use of the Shina Pal Lar was discontinued.*

During the 18th, parties of the enemy were seen making sangars in the area Nagtudi-Granai Maranarai. From the Tarkhike Algad there is a choice of two roads to Wana, one by Granai Maranarai and the other by Kut Narai. The permanent piquets were only established as far as the Tarkhike Algad in order to leave the enemy uncertain by which road the advance was to take place.

19. The advance to Wana was continued on the 19th December. A strong advanced guard was formed under Lieutenant-Colonel B. U. Nicolay, of the 4-3rd Gurkha Rifles, consisting of the following troops:—

- 1 Pack Battery,
- 1 Section* Machine Gun Company,
- 4-3rd Gurkha Rifles and
- South Waziristan Militia.

The advanced guard left camp before dawn so as to be in a position to begin its advance across the plain to the east of the Tarkhike Algad at 07-15 hours. It was to seize, as rapidly as possible, the high ground on both sides of the Granai Maranarai. Taking the fullest advantage of the half light, and then of the rising sun behind them, the troops advanced rapidly, forestalling any opposition, and were in possession of Point 3963 and of the low features west of Kam Tarkhike by 08-00 hours. The enemy were taken completely by surprise and had no time to occupy the sangars previously prepared.

There was little further opposition, and by 10-25 hours the advanced guard was in possession of the ridges commanding the junction of the Granai Maranarai and the Sauzala Algad roads. The 2nd Battalion, the Norfolk Regiment, now replaced the 4-3rd Gurkha Rifles in the advanced guard and Lieutenant-Colonel W. F. L. Gordon, C.M.G., D.S.O., took over command from Lieutenant-Colonel B. U. Nicolay. The advance to Karab Kot met with no further opposition, and the camping ground was reached at 13-30 hours.

The strength of the enemy on this day was about 700 men and our intelligence reports pointed to his intention to make a stand. Our casualties

* NOTE.—The road used henceforward ran from Dargai Oba north east to Point 4296, then south east to join the southern road; thence by the Woragha Tangi to Sarwekai camp.

In one case a number of Powindah camels were seized five miles from Bannu, but the 21st Cavalry, getting news of the capture, were too quick for the raiders, and moving out from Bannu between the hills and the main road succeeded in recovering all the camels and captured two of the raiders.

27. On the 4th January, two companies of 48th Pioneers, together with a company of the 28th Punjabis, acting as covering troops, were surprised near Jandala, when engaged in making a road, and suffered severe casualties, fire being opened on them at short range. The enemy, numbering 120, belonged to recalcitrant sections of the Mahsuds.

The troops behaved gallantly under trying circumstances, and all the wounded were brought back to camp with the assistance of an armoured car of No. 5 Armoured Motor Battery and reinforcements of the 82nd Punjabis sent out from Jandala. Our casualties amounted to two British officers and one Indian officer wounded, ten Indian other ranks killed and thirty-nine Indian other ranks wounded.

28. On 14th January road protection troops from Sorarogha were attacked by a large gang, but were reinforced by the movable column from Sorarogha when the withdrawal to camp was successfully carried out. Our casualties were one British officer wounded, three Indian other ranks killed and ten wounded.

Two days later, the road protection troops were again attacked in the same vicinity by about 50 Abdullai Mahsuds. Our infantry and the neighbouring piquets engaged the enemy and the 27th Pack Battery opened sudden and accurate fire on them. It was later ascertained that the Mahsuds lost nine killed and twelve wounded on this occasion.

In January altogether seventeen attacks occurred on the Ladha line, and one in the Tochi.

29. During February sniping of piquets and convoys continued. Eighteen such cases occurring on the Ladha line; none of them were serious, but they resulted in the loss to our troops of eight killed and eight wounded.

30. During March it became obvious that the tribes were anxiously watching to see what the result of the Kabul negotiations would be. The Afghan demand that we should withdraw our troops from Waziristan and Afghan propaganda had a direct effect on the hostile sections both of the Mahsuds and Wazirs.

On the Wana line sniping of convoys began to increase, instigated by the Haji from across the border, and on the Ladha line hostile Mahsud activity continued.

31. On 22nd March a gang of about 100 Abdullai Mahsuds attacked the camel convoy between Manzai and Khirgi. The local road protection troops were outnumbered and were unable to prevent the gang driving off fifty camels.

On the 24th March the road protection troops from Ladha, consisting of three companies of the 4-39th Garhwal Rifles, were heavily attacked near Piazza Raghza.

News of the attack reached Ladha and a reinforcement of the remaining company of the 4-39th Garhwal Rifles with stretchers was sent back and the withdrawal which had been delayed was continued, and the wounded were eventually brought in. The casualties of the 4-39th Garhwal Rifles were heavy and consisted of 16 Garhwali other ranks killed, one British officer, three Garhwali officers and twenty Garhwali other ranks wounded.

32. As a reprisal for this attack, Makin was subjected to bombing from the air on the 28th, 29th and 30th, the bombing machines going out at varying times morning and evening. Four 112-lb. bombs and over a hundred 20-lb. bombs were dropped and 950 rounds of small arms ammunition fired on different targets with good results.

CASUALTIES.

33. The total casualties sustained from 1st November 1920 to 31st March 1921 amounted to—

CONCLUSION.

34. The occupation of such a country as Waziristan is a severe strain on the troops who have to face arduous and dangerous duties daily. The scorching heat of summer followed by a bitter winter demands a very high standard of endurance from all troops employed in protective duties, whether in permanent piquets or on road protection.

35. Whilst the heaviest work has fallen on the infantry, the co-operation of the 11th Pack Artillery Brigade with them has throughout been of a high order. No. 6 Pack Battery (British) and No. 35 Pack Battery on the Wana Column had also opportunities of working with "A" Company, No. 11 Machine Gun Battalion, which joined the column in December 1920, and these units did much useful combined work.

No. 27 Pack Battery and a section of the 128th Howitzer Battery have rendered valuable assistance to piquetting troops on the Ladha line of communications, covering several difficult withdrawals.

36. There have not been many opportunities for cavalry action, but both the 16th and 21st Cavalry have made the most of the chances given them.

37. A detachment of South Waziristan Militia was employed on the Wana Column. Their local knowledge of the frontier and training were very useful during that time.

38. The 2nd Squadron, Royal Air Force, has been closely connected with the operations described above. This squadron was located at Tank from November 1920 to April 1921 and rendered the force great service both in reconnaissance and bombing expeditions.

39. The engineer services during the period under review have been very fully engaged in works of various kinds, and have carried out their duties to my entire satisfaction. Some two hundred miles of road have been maintained for continuous traffic of heavy and light mechanical transport.

One of the main objects of our present occupation of Waziristan is to enable good roads to be driven through the country whereon blockhouses will be built so as to enable us to control and police the country. The construction of the mechanical transport road of the Takki Zam is the first step in the programme. Throughout the cold weather work has proceeded satisfactorily in spite of great difficulties.

Besides the work on roads the Royal Engineer services have provided installations for electric power, water-supply and ice factories throughout the force. Piped water supplies have been provided at Darya Khan, Kaur Bridge, the fort area Dera Ismail Khan, Bannu and Ladha.

On the Wana Column operations the 14th Field Company, R. E., and the 2-61st Pioneers were continually employed during the forward advance in the construction of piquets and blockhouses.

40. The daily work of the signal personnel throughout the various long lines of communication has been continuously difficult and dangerous.

In spite of the constant cutting of wires and wilful damage to air lines, Force Headquarters has never been out of touch with its furthest posts, except for very brief intervals. This is a very high standard to have attained and has meant great devotion to duty throughout the Army Signal Service.

The work of the Army Signals was ably seconded by the Line of Communication Signal Company which, composed of civilian personnel, provided the whole of the semi-permanent telegraph and telephone lines.

The shortage of operators has restricted the use of wireless to some extent, but on occasions when communications otherwise have been interrupted the wireless stations in the area have successfully taken the place of the land lines.

41. The administration of a force such as this with several different lines of communications makes heavy demands on staff and administrative services. The force has been self-supporting as regards fuel, meat and also partially as regards fodder. All other supplies for approximately 65,000 troops and 25,000 animals have to be conveyed from the broad gauge railheads east of the Indus river across that river on steamers and flats to the forward areas. West of the Indus the means of transport are many and varied.

The necessities of a modern army at war are many, but when in addition to this every requirement for a prolonged occupation of a country such as Waziristan has to be sent up the line, the capabilities and resources of the administrative services are heavily taxed.

Only by continuous and sustained effort on the part of all Supply and Transport services were the requirements of the troops met. The Supply and Transport also took over the administration of Field Force canteens and was responsible for running all military dairies in the area. The supply of fresh vegetables and ice to troops up the line was also arranged for by this corps.

42. Waziristan has an unequivalable reputation for climate. The extremes of heat and cold combined with the virulent malaria indigenous to the country are conducive to a high sick-rate.

That the sick-rate has not been higher is directly attributable to the care and forethought of the medical authorities. The medical units throughout the force are mobilized ones, yet they have been expanded and developed so that the sick and wounded receive treatment much in advance of that ordinarily procurable in field units.

43. The Ordnance Service has very efficiently fulfilled the heavy demands made upon it. The establishment of a large depot at Mari Indus was determined on last summer, based on the requirements of a force of 60,000 for four months. This entailed elaborate arrangements for shedding, stacking and shelving material for several hundred tons of stores.

44. With 24,000 transport and other animals in the force, for the most part continuously employed on convoy duty, efficient veterinary treatment is essential.

Veterinary hospitals with adequate provision for sick animals have been established, and it is due to the excellence of their arrangements that rinderpest, which threatened to become an epidemic, was prevented, and the staging camels were maintained in health.

45. The tact determination and skill with which Major-General T. G. Matheson, C.B., C.M.G., has conducted the operations since October 20th, 1920, deserves special mention. Though previously unacquainted with the frontier, he has carried out his difficult task with marked success and to my entire satisfaction, in the face of adverse conditions and constant anxiety. He is a skilful and resolute commander.

46. I desire here to record my thanks to J. A. O. Fitzpatrick, Esq., O.B.E., C.I.E., Resident in Waziristan, for the able assistance and advice he has given. Major-General T. G. Matheson, C.B., C.M.G., and his predecessor Major-General W. S. Leslie, C.M.G., D.S.O., have both expressed their appreciation of the political assistance afforded them.

47. Major-General W. S. Leslie, C.M.G., D.S.O., commanded Wazir Force from the 25th May 1920 to 19th October 1920, after which he held command of the Wana Column until 20th March 1921. He is a skilful and resolute commander, whose knowledge of frontier warfare under modern conditions is invaluable. It was largely due to his skill that Wana was reached with so few casualties.

48. A list of the names of those whose services have been of particular value will follow.

FORESTS.

NOTIFICATION.

No. 5014For.—The 5th May 1922.—The following regulations for the appointment, in India, of probationers for the Imperial Forest Service in 1922 are published for general information.

M. C. MCALPIN.

Secretary to the Government of Bengal.

Regulations for the appointment, in India, of probationers for the Imperial Forest Service in 1922.

Applications are invited from natives* of India and Burma for probationerships for the Imperial Forest Service. Candidates of European or Anglo-Indian descent must be unmarried and, if appointed as probationers, must remain unmarried until completion of the prescribed course of training and their return to India.

2. Applicants, who should not be more than 23, nor less than 19, years of age on 30th June 1922, must possess an *Honours*, or a first class, degree in Science of a University incorporated by law in British India.

3. Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Testimonials or other recommendations should not be attached to the applications.

4. Applications from officers already in the public service, whether as probationers or on a permanent establishment, will not be entertained.

5. Applications from residents in Coorg, Ajmer, Baluchistan, North-West Frontier Province and Delhi should be addressed to the Secretary to the Government of India, Department of Revenue and Agriculture, through the Chief Commissioners of those Administrations, and from residents in Indian States through the Political Officer or Agent in time to reach the Government of India *not later than the 15th June 1922*. Applications from residents in other territories should be addressed to the Revenue Secretary of the local Government concerned in time to reach him *not later than the 15th June 1922*. The applications must be in the form attached to these regulations. Copies of the regulations and of the forms of application may be obtained from the Secretary to the Government of India, Revenue and Agriculture Department, the Revenue Secretaries to the Government of Madras, Bombay, Bengal, the United Provinces, the Punjab, Burma, Bihar and Orissa, Assam, Central Provinces, the Chief Commissioner of Coorg, Ajmer, Delhi; the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province; the Agent to the Governor-General and Chief Commissioner in Baluchistan and Political Officers of Indian States.

6. Applications must be accompanied by a preliminary medical certificate of fitness for service in the Forest Department, signed by a Presidency Surgeon or the Civil Surgeon of the district or agency in which the applicant resides. This certificate is intended to prevent applications from candidates who are obviously physically unsuited for the Forest Service and will not exempt candidates from appearance before the final Medical Board.

7. Candidates who from their applications and from any further enquiries that may be considered necessary appear to the Government of India or to the local Government concerned to be *prima facie* suitable will be summoned to appear before a Medical Board to undergo a strict medical examination in which particular stress will be laid on good vision and hearing. If passed as fit for the work of the Forest Department, they will then be interviewed by a Selection Board appointed by the Government of India or by the local Government concerned as the case may be.

8. Candidates summoned by the Government of India to appear for the medical examination and interview referred to in paragraph 7 who come from a greater distance than 200 miles for either purpose will be paid half the cost of a 2nd class fare [by rail or (and) by steamer] for the journeys to and from the place where the medical examination and interview are held.

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India or within the territory of the Indian Princes tributary to, or in alliance with, His Majesty, of parents habitually resident in India and not established there for temporary purposes only.

Candidates summoned by local Governments for similar purposes may be paid travelling allowance under such conditions and at such rates as the local Government concerned may specify.

No allowance for board and lodging will be made in connection with the journeys mentioned above and candidates must make their own arrangements in this respect.

9. Those finally selected as a result of the interview prescribed in paragraph 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. Candidates selected for training will be provided with second class passages to England, *but the cost of travelling to the port of embarkation will not be paid.*

10. *Period of probation.*—Before appointment to the Imperial Forest Service a probationer will be required—

- (1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;
- (2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;
- (3) to have passed an examination in forest engineering and, if required in certain other special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;
- (4) to have undergone a final competitive examination in Forestry;
- (5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursions to forest centres in the United Kingdom while at the University and on practical instruction.

12. *Allowances.**—The Secretary of State for India in Council makes payment to each probationer at the rate of £350* per annum, not exceeding a total of £700.

These payments are ordinarily made on the following dates:—

First year—

	£
on the 15th October	75
" " " December	100
" " " March	75
" " 1st July	100
	<hr/>
	350

Second year—

on the 15th December	100
" " " March	75
" " 1st July	100
" " 15th October	75
	<hr/>
	350

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent, under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials at the centres visited will also be paid by the Secretary of State.

* This allowance is unlikely to be sufficient to meet all the needs of a probationer, who should be in a position to provide himself with at least another £150 per annum from other sources.

The grant of allowances is subject to the following conditions :—

- (a) that the progress of the probationer in his studies is satisfactory ;
- (b) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation ;
- (c) that the probationer undertakes to refund in proportions fixed under the terms of his agreement, the payments together with the cost of his first class passage to India, in the event of his leaving the Service during the first five years from the date of his appointment.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationers will be confirmed as a member of the Imperial Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. Officers promoted from the Provincial to the Imperial Service will take rank according to their pay in the latter service. Probationers recruited under these regulations must consequently be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted ; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however be required to serve in Burma and Burmans will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment ; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first-class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion and pension.*—Promotion and pension are governed by the regulations laid down by the Government of India, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to the Government.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and summary of information regarding pensions is contained in Appendix III.

* Probationers will be required to give security to the local Government or Political Officer, through whom they submitted their applications. If this condition is not satisfied, they will not be permitted to leave for England.

APPENDICES.

APPENDIX I.

With a view to the allocation of the annual Currie Scholarship for Indian Forest Students (value about £35), and to facilitate the allotment of probationers to the several provinces in accordance with paragraph 14 of the regulations as to appointments in the Indian Forest Service, probationers who have completed their prescribed course of training are required to undergo a competitive final examination in Forestry.

2. A list of the probationers in order of merit is prepared by adding together (a) the marks obtained at the final examination, and (b) the marks obtained during the course of practical training in Forestry under the control of the Director of Indian Forest Studies. RESOLUTION.

In paragraph 3 of Finance Department Resolution No. 1559-E.A., dated the 16th August 1921, the Government of India have issued general orders on the question of compensation to officers of the Services on account of low rates of exchange. As several representations have been received as to the position, in regard to these orders, of those services and appointments from which exchange compensation allowance has not been expressly withdrawn, it is necessary to amplify the orders to remove all doubts on the question of this allowance.

2. The position of the various services may briefly be explained as follows:—

- (1) In pursuance of the general policy of Government that exchange compensation allowance should cease to be admissible on the occasion of a revision of pay of a service or appointment previously entitled to the concession, the allowance had already been withdrawn prior to the Report of the Public Services Commission from the Indian Forest Service, the Indian Police (except those officers who were recruited before 1906) and from the great majority of officers in the Indian Political Department, the Public Works Department and certain other services.
- (2) At the introduction of revised scales of pay as a result of the Report of the Public Services Commission, exchange compensation allowance was specifically withdrawn from other services, e.g., the Indian Civil Service and the Civil Veterinary Department. The allowance was also definitely held to be inadmissible to the Indian Medical Service at the last revision of the scale of pay.
- (3) In certain other services, such as the Indian Educational Service, the Ecclesiastical Department and the Indian Audit Department, no definite pronouncement was made at the time of introduction of the revised rates of pay, as at that time the question did not immediately arise owing to the high rates of exchange then prevailing.

3. The absence of definite orders in cases falling under the third category has given rise to doubts as to the intention of Government. The whole question has therefore been considered, and the Government of India, with the approval of the Secretary of State, now desire to reaffirm the principle adopted in the past and adhered to in revisions of recent date that exchange compensation allowance should cease to be admissible to services and appointments the pay of which has recently been revised.

From the date of introduction of revised rates of pay, the allowance is therefore declared to be inadmissible to—

- (i) The Indian Educational Service ;
- (ii) Officers of the Indian Audit Department and the Ecclesiastical Department previously entitled to exchange compensation allowance ;
- (iii) Residents in the Indian Political Department (though the pay of 1st Class Residents has remained unchanged, the pay of the service, as a whole, has been revised) ;
- (iv) Officers of the Indian Police Service, except those appointed prior to 1906 who retain the right to the allowance ;
- (v) Officers in all other services and special appointments in respect of whom no specific declaration of inadmissibility has been made at the time of revision of pay.

4. The terms of paragraph 3 of the Finance Department Resolution No. 1559-E.A. of the 16th August 1921 will in such cases operate to safeguard officers against actual loss of emoluments.

5. The Judges of High Courts were entitled to exchange compensation allowance under the Statutory Rules set forth in Article 543 of the Civil Service Regulations, under which every Judge is allowed to draw, in addition to his salary, any exchange compensation allowance which may be sanctioned for public servants generally. As the allowance has now been generally withdrawn, the statutory rules will be amended and Judges will not be entitled to any allowance calculated on pay earned after the 1st April 1922. Any person, however, who as Chief Justice or Judge drew exchange compensation allowance before this withdrawal of the allowance from public servants generally will be protected from actual reduction of emoluments, owing to such withdrawal, by the grant of personal pay as provided in paragraph 3 of Resolution No. 1559-E.A., dated the 16th August 1921, when, and for so long as, he holds the same or a similar post on the same pay.

6. Officers serving on contract in which exchange compensation allowance forms part of the terms of the contract may retain the right to the allowance during the period of their existing engagement.

7. It has been brought to the notice of Government that in consequence of the omission to announce the withdrawal of exchange compensation allowance, and if officers have in some cases passed the allowance which has thus been drawn by officers not entitled to it under the present orders. The Government of India are, however, pleased to declare that such amount shall not be recovered, but such allowance shall cease to be drawn on pay earned after the 1st April 1922.

8. Officers who, on the 1st April 1922, are on leave and in receipt of leave salary which includes exchange compensation allowance, should continue, during leave, to draw exchange compensation allowance, instead of personal allowance in lieu thereof.

ORDERED that a copy be forwarded to the several Departments of the Government of India ; to all local Governments and Administrations ; to the Financial Adviser, Military Finance ; to the Auditor General ; to the Controller of the Currency ; to the Mint and Assay Masters, Calcutta and Bombay.

(a) “Regular Class” is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Bihar, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

			Rs.	A.
Admission fee	20 0
Fees for Summer term	62 8
Athletic Club fee	2 0
				<hr/>
	Total	84 8
				<hr/>

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, six candidates by the Inspector-General of Civil Hospitals of Assam and one by the Government of Central Provinces. These candidates must possess the qualifications mentioned in rule 2 (a).

In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, *viz.*, Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual athletic club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.

12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment:—

				Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 13 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 13 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships, awarded by the Government of Bengal, are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. OFFICE OF THE ACCOUNTANCY DIPLOMA BOARD, 65, APOLLO STREET, BOMBAY, *the 27th April 1922.*

INSTRUCTIONS TO CANDIDATES FOR

THE GOVERNMENT DIPLOMA IN ACCOUNTANCY OF THE SYDENHAM COLLEGE OF COMMERCE AND ECONOMICS, BOMBAY.

Regulation No. 4.—

(A) *Examinations equivalent to Matriculation.*—Examinations recognized by an Indian University as equivalent to the Matriculation or Entrance examination of that University will be recognized as such by the Accountancy Diploma Board under this Regulation. If the candidate has studied for one or more terms in a College affiliated to an Indian University, a certificate to that effect signed by the Principal of that College will be accepted as proof of the candidate's eligibility for the Diploma course. The previous orders of the Board must be secured by the candidate in other cases.

(B) *Attendance certificate.*—The attendance ought to be in an Institution specially recognized by the Accountancy Diploma Board for purposes of this Diploma. The candidate is required to have attended three-fourths of the number of days on which lectures were delivered in each of the two academic years. Should his attendance in either of the two years have fallen short of three-fourths, that particular year will not be counted as a portion of the two year's attendance prescribed by this Regulation. If he has attended the prescribed number of lectures in each of two academic years, but has not been certified as fit to present himself for the examination, he will not be required to attend lectures for a third year, but will merely be required to satisfy the Principal about his fitness to appear for the examination, and to submit his application through the Principal. He may undergo practical training in accounts during such third year, and such training will be counted as a portion of the three years' training prescribed by Regulation 12 (b).

(C) The fee of Rs. 50 must reach the Secretary to the Accountancy Diploma Board, 65 Apollo Street, Fort. Bombay, on or before 31st January. *Fees paid in will on no account be refunded.*

Regulation No. 5.—

Under this regulation, an under-graduate may, in lieu of attending lectures for two years as prescribed by Regulation No. 4, receive practical training in accounts for two years. He must apply to the Board for the recognition of such practical training and secure the orders of the Board before applying for the examination; the number and date of such order must be quoted in the candidate's application for the examination.

Regulations 6 and 13—

When the holder of a *temporary* auditor's certificate applies for the examination under Regulation 6 or for the Diploma under Regulation 13, the period for which the auditor's certificate was granted must not have expired. An application from such a candidate submitted after the expiry of the period for which the certificate was granted will not be accepted by the Board.

Regulation 12.—

Practical training.—Every candidate entering on the course of practical training prescribed by this Regulation must submit to the Accountancy Diploma Board an application for the recognition of such practical training in the prescribed form, copies of which can be had at the office of the Board, Apollo Street, Bombay; such applications must be submitted within sixty days of the commencement of the practical training.

The practical training must be under a Chartered or an Incorporated Accountant or a certified auditor, working as a Public Accountant. It is immaterial whether the candidate has paid a premium for such training or is in receipt of a salary. It is essential that he should be a full-time apprentice and should not be engaged in any other work during the usual office hours.

Chartered and Incorporated Accountants may take and train apprentices without the previous permission of the Government. The holder of a *permanent* (whether restricted or unrestricted) auditor's certificate granted by a local Government, may take and train apprentices, provided he is specially empowered in that behalf by the local Government of the Province where he is practising. The mere fact that he holds a permanent auditor's certificate will not empower him to take apprentices.

The apprenticeship may be served partly under one and partly under another practising accountant, provided it is in each case reported to and recognised by the Accountancy Diploma Board.

Regulation No. 12 (b).—

The practical training in accounts prescribed by this regulation may be (1) partly before and partly after, or (2) wholly before, or (3) wholly after the candidate passes the Diploma examination of this Board. The course prescribed for an under-graduate covers five years, viz., two years as a student of a recognized Institution, *plus* three years apprenticeship. The practical training in accounts, if any, received by an under-graduate during his two years' attendance of a recognized Institution will, therefore, not be reckoned as a portion of the three years' apprenticeship prescribed by this regulation.

Regulation 12 (c).—

At least two out of the three years' apprenticeship prescribed for graduates must be served after they become graduates.

Number of Apprentices.—No practising Accountant will be authorized to take and train *more than two apprentices at a time*. But a Chartered or an Incorporated Accountant, in public practice, may, in special cases, be permitted by the Accountancy Diploma Board to take and **NOT** more than *four apprentices* at a time.

Auditor's Certificate.—No permanent unrestricted Auditor's certificate will be granted by any local Government or Administration to a person who does not hold the Government Diploma in Accountancy of the Sydenham College of Commerce and Economics, Bombay. Holders of the Diploma have to apply for a permanent unrestricted Auditor's certificate to the local Government of the Province where they intend to set up practice.

By order of the Accountancy Diploma Board,

K. S. AIYAR, B.A., L.T., F.S.A.A.,

Secretary.

RULES FOR THE GUIDANCE OF STUDENTS SEEKING ADMISSION.

1. Two classes of students are admitted for study in the College—

(a) “Regular,” or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University, and the Province of Bihar and Orissa.

(b) “Military Class” (only students of European or Eurasian parentage are admitted to this class). (*See* separate Prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the—

(a) “Regular Class” is the Pass certificate of the 1. Sc. Examination of the Calcutta University with Physics and Chemistry.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

			Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	2	0
Total			84	8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, six candidates by the Inspector-General of Civil Hospitals of Assam and one by the Government of Central Provinces. These candidates must possess the qualifications mentioned in rule 2 (a).

In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, *viz.*, Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual athletic club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.

12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment:—

			Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 13 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 13 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships, awarded by the Government of Bengal, are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. The courses of lectures commence in July and continue until the following April, except the course of Accountancy and Auditing, which extends over two years.

(a) **Book-keeping (Elementary).**—Students having a satisfactory knowledge of English and Arithmetic are admitted. Text-book—Arthur Fieldhouse's Complete Book-keeping, up to 100 exercises including Partnership accounts. The fee for the full session, July to April, is Rs. 24, payable in eight monthly instalments of Rs. 3 each. Classes are held three times a week from 6 to 7 P.M.

(b) **Book-keeping (Advanced).**—Students who have passed the Elementary Book-keeping Examination, or who can give satisfactory proof of their knowledge of Elementary Book-keeping up to the requisite standard, are admitted. Text-book—Complete Book-keeping, by Arthur Fieldhouse. The fee for the full session, July to April, is Rs. 32, payable in eight monthly instalments of Rs. 4 each. Classes are held twice a week from 6 to 7 P.M.

(c) **Shorthand (Theory).**—Pitman's Shorthand is the system taught. Students having a sufficient knowledge of English are admitted at the beginning of the session in July. Students are also admitted in December, provided they have already a sufficient knowledge of Shorthand to enable them to appreciate the lectures in the session, December to April.

The minimum speed required to pass the examination is 80 words per minute. The class is held daily from 5 P.M.

The fee for the session, July to November, is Rs. 12, which may be paid in four monthly instalments of Rs. 3 each. The fee for the session, December to April, is Rs. 16, which may be paid in four monthly instalments of Rs. 4 each.

Students having a minimum speed of 80 words per minute are admitted in December, and the class practice is from 80 to 140 words per minute.

In the examination the tests are at four grades of speed, 80, 100, 120, 140 words per minute, and at higher speeds if candidates can write more rapidly. Classes are held daily from 6 P.M. Fees are the same as for (c).

For each of the speed tests there is a corresponding accuracy test in tabulating. Classes are held at 5, 6 and 7 P.M. Fees are the same as for (c).

Combination of the above subjects and reduction of fee.—If a student simultaneously takes up two or three of the subjects (a) to (e), a reduction of Re. 1 per instalment of each of the fees payable by him will be granted: for example, if a student is a member of both the Shorthand and the Elementary Book-keeping classes, he will have to pay instalments of Rs. 2 for each subject instead of Rs. 3 for the session, July to December.

(f), (g), (h), (i) and (j).—Classes are formed in these subjects if a sufficient number of candidates apply for admission. The fee for each subject is Rs. 3 for each series of ten lectures.

(k) **Accountancy and Auditing.**—There are two courses of year each for ordinary students, or one year for those who are already practising as Auditors, to prepare candidates for the Government examination of Diploma in Accountancy, which qualifies them to obtain the Government license to practise as Auditors. Students of this class have to attend Book-keeping and Mercantile Law classes, for which no extra fee has to be paid. The fee is Rs. 144, payable in advance in four half-yearly instalments of Rs. 36 each in the case of ordinary students and Rs. 72 in two half-yearly instalments of Rs. 36 each in the case of those who are practising as Auditors and hold a provisional license granted by Government.

2. **Examinations.**—The examination in subjects (a) to (j) is held at the end of April, at the end of the year's course, under the control of the Government Commercial Institute Board, and successful candidates receive certificates signed by the Director of Public Instruction, Bengal, and countersigned by the Secretary to the Bengal Chamber of Commerce. The examination fee for each subject is Rs. 5.

3. **Attendance.**—Strict regularity and punctuality of attendance are observed. Students must attend 75 per cent. of the lectures in order to appear at the examination. Classes are not held in the evening on Saturday.

4. **Standard of Admission.**—Candidates who have attended the lectures of the day course are eligible for admission. Others will be admitted, provided they appear qualified for the class or classes they seek to join.

5. **Prizes.**—Prizes of Rs. 50 each are offered by the Bengal Chamber of Commerce to the best candidates from the evening classes in subjects (b), (d), (f), (g), (h), (i) and (j). RESOLUTION- No.3081M.

READ—

The reports on the municipal administration of Calcutta for the years 1918-19, 1919-20 and 1920-21, together with the reviews of the reports recorded by the General Committee and the Corporation.

Introductory.—This resolution deals with the administration of the Corporation of Calcutta during the three years ending the 31st March 1921.

consider the question of improving the filtered water-supply of Calcutta, Mr. St. George Moore, an Engineer of considerable waterworks experience, was brought out from England to advise the Corporation on the subject. The scheme that was first drawn up by Mr. Moore was rejected by the Corporation on the score of cost. Eventually it was decided that the unfiltered water-supply should not be abolished and that the scheme be modified so as to provide for 70 million gallons of filtered and 40 million gallons of unfiltered water daily with adequate control of the filtered water supply by metering so as to maintain a continuous water-supply at a minimum terminal pressure of 40 feet. The scheme, which it is estimated will cost over two crores of rupees and will take five years to complete, has since been sanctioned by Government. The Minister trusts that as the deliberative stage in connection with the improvement of the water supply which began so far back as 1913 has now been satisfactorily concluded, there will now be no delay in the execution of the scheme.

11. **Drainage.**—In the last resolution it was observed that the extension of its underground drainage system into the suburbs was perhaps the most pressing task which now confronted the Corporation and it is satisfactory to find that substantial progress in drainage works has since been made. Several of the schemes undertaken will go far to remedy the insanitary conditions which prevail in the outlying parts of the municipality. The sewerage of certain roads west of Tolly's Nullah—a long-deferred advance—was undertaken and in all nearly 17,300 feet of sewers were constructed during the triennium. The completed sewers will drain portions of wards XXIII, XXIV and XXV.

The scheme for the drainage of the area west of the Kidderpore Docks and the Chetla rice mill area and the construction of the main outfall sewer in connection with the Improvement Trust Schemes VII and VIIA were commenced. Other important works taken in hand during the period were the construction of the main outfall sewer which forms a part of the scheme for sewerage the area west of Hazra Road and the sewer to relieve the flooding in the Bhowanipore area. The Corporation besides completing certain works of minor importance continued the survey of the town sewers, and altogether 80 miles of sewers in the city and suburbs were examined. The structure of these sewers was found to be in a good state of preservation.

The decay of the Bidyadhari river which forms the drainage outfall of Calcutta is again compelling anxious attention. The spill areas which were opened out with the view of giving a better scour to the river have failed to fulfil expectations and regular observations go to show that the silting of the Bidyadhari continues. The problem of the ultimate disposal of the drainage of the city is now becoming urgent and it is recognised that in any case the pumping of storm water will be necessary within a very few years.

12. **Roads and lighting.**—Expenditure on road repairs and other road works has been heavy and indeed the improvement of road surfaces is one of the outstanding features in the record of municipal progress.

The value of asphaltum as a road surface has been established and some important thoroughfares in northern Calcutta have since been paved with this material. Bituminous surfaces, broad, clean footpaths, the paving of narrow lanes and gullies, the laying of stone setts in streets which carry heavy traffic, and greater attention to the repairs of ordinary macadamized roads—these things have to some extent effected a transformation of the conditions of a decade ago.

The efficiency of public lighting was well maintained and further progress was made with the scheme for the conversion of oil lights and the erection of additional gas lamps. Minor economies and improvements were also made in street lighting.

13. **Markets.**—The municipal markets (four in number) continue to be a valuable asset of the Corporation and a great public convenience. The total receipts they yielded were nearly Rs. 9 lakhs, and after meeting establishment and other charges including 5 per cent. interest on

the capital outlay, the Corporation made a net profit of Rs. 1½ lakhs during the year 1920-21. These institutions also enabled the Corporation to keep some kind of check on the prices of commodities as they soared up towards the end of the war and to restrict the extent of food adulteration.

Various additions and improvement were made in these markets, and a self-contained block for the sale of pure milk with a testing room for the examination of samples and a laboratory and hot water installation was constructed in the Sir Hogg Stuart market. A new building has been added to this market and the acquisition of land has been sanctioned for its further extension. The construction of a one-storeyed building and a chandney in the northern section of the College Street market was taken in hand towards the close of the triennium. The striking success of these institutions has led to proposals being brought forward for the establishment of other markets and a project to establish a municipal market, in place of the Mowlali Bazar, on the Lower Circular Road was approved and the acquisition of land sanctioned.

Minor improvements were also made in the private markets the conditions of which are still far from satisfactory.

14. Improvement works.—No comprehensive improvement scheme was undertaken within the triennium. But measures which go far to improve the amenities of the city such as construction of new roads, widening, kerbing and channelling of existing roads, and paving narrow passages with brick-on-edge were extensively undertaken. The park for purdanashin ladies in the north of the town may be said to have justified itself, though full advantage has hardly yet been taken of the opportunities which it affords.

15. Sanitary Improvement.—High prices and the scarcity of materials have made it impossible for the Health Department to enforce with any uniform rigour their requisitions for sanitary improvements in private premises.

Nevertheless the improvement of insanitary buildings in Malanga Lane and selected areas in Districts I and II has been steadily pressed on.

Many bustees were improved by the opening up of roads and the provision of sanitary conveniences, while some bustees were finally swept away.

16. Conservancy.—Extensive improvements were made in the permanent way and the rolling stock of the municipal refuse railway which had fallen into disrepair, and the chances of temporary break-down in the working of the railway have been reduced. The Minister is glad to observe that the Corporation has taken a definite step towards the introduction of motor traction for the removal of refuse in Calcutta. Five motor lorries have been purchased and have been placed in commission since the close of the triennium and a system of sunken bins has also been introduced for the temporary deposit of refuse. The service is not cheap, but if its gradual extension ultimately makes it possible to abolish the refuse railway, the citizens of Calcutta are not likely to grudge the cost.

17. Public Health.—In 1920-21, there was some improvement in public health, the previous year having been one of the worst on record, but as a whole, the triennium appears to have been an abnormal one from the health point of view. There was increased mortality under all heads, but it is thought that the disastrous pandemic of influenza in 1918 helped to sap the vitality of the people and thus opened the way to other diseases.

The death rate rose from 24·7 in 1918 to 39·3 in 1920-21 per thousand of population, while the birth rate fell from 20·9 to 17·1 in the last year under review. The decrease in births is due to a large extent to defective registration and to a certain extent to the general unhealthiness of the period under review. A special census of children in a particular ward went to show that nearly 13 per cent. of the children born in Calcutta has escaped registration. It is reported that this figure corresponds closely to the difference between the birth rate for the year and the quinquennial average. To remedy this defect, the Chairman proposes to overhaul the system of registration and it is hoped the next return will show a better result.

The infantile death rate also rose to an abnormal figure and the expectation of a decreased mortality has not been realised. It rose from 239 per thousand births in 1917 to 357 and 386 in the last two years of the triennium. Defective registration has helped to inflate the returns. But there is no doubt that the general unhealthiness of the period has had also its effect. As usual the Jorabagan ward showed the worst record, and in 1918 over 50 per cent. of the infants in this ward perished—an appalling result. About 35 per cent. of on infantile deaths occur in the first week of life.

The Corporation Lady Health Visitors and Midwives continued to do excellent prenatal and child welfare work. Amongst the children delivered and attended to by them, there was a mortality of 43 per 1,000 in the first ten days of life and 24.9 among the older infants. This compares very favourably with the corresponding general infantile mortality of 117 per and 283.9 per 1,000. Provision was also made in this connection for the distribution of warm clothing and dried milk in deserving cases. The result achieved shows that there is considerable scope for the development of maternity and child welfare work and the Minister is glad to observe that the Corporation has approved a scheme for its extension. The scheme provides for four child welfare centres and in addition two maternity homes. A project for a home in the northern quarters at an estimated cost of Rs. 4,14,587 has since been sanctioned and a suitable site has been acquired.

The inequality of the death rate amongst males and females which appears to be a fixed feature of the vital statistics of Calcutta continued and the rate of 14.8 (males) and 32.1 (females) per mille for 1917 rose to 33.8 and 50.9 in the last year of the period under review.

The marginal figures show the mortality from influenza, plague, small-pox and tuberculosis.

Year.	Plague.	Influenza.	Small-pox.	Tuberculosis.
1918	210	4,115	545	1,526
1919	334	3,363	1,870	1,859
1920	53	1,665	2,925	2,120

The increased mortality from tuberculosis may to some extent be an aftermath of the ravages of influenza. Plague and cholera appeared in an epidemic form and the usual quinquennial epidemic of small-pox broke out in November 1919 after some premonitory outbreaks and lasted till June 1920. The mortality from cholera rose from 866 in 1917 to 3,688 in 1919. Although the infection was in a great measure spread by the pilgrims returning from Saugor Mela, yet the more severe prevalence of the disease in the riverain wards clearly indicated that the use of unfiltered river water is a potent means of infection. The mortality from malaria also showed an upward trend and rose from 984 in 1917 to 1,289 in 1920.

It is satisfactory to find that there has been a steady decrease in the percentage of *ghee* found adulterated since the passing of the Calcutta Municipal (Amendment) Act of 1917 and that the quality of *ghee* found in wholesale and big retail shops has improved. *Ghee* with which sweetmeats are prepared continues, however, to be of an inferior quality. Mustard oil was found to be adulterated with oil educed from pakra seed, which contains prussic acid. The public were warned against this new evil and effective steps were taken for the supply of pure mustard oil to the public. Vigorous measures were taken to secure the inspection of shops and to intercept unwholesome foodstuffs and adulterants coming from outside.

18. **Education.**—The total amount of aid given by the Corporation to educational institutions of all kind increased from Rs. 85,528 in 1917-18 to Rs. 1,40,030 in 1920-21; this included indirect grants in the shape of exemption from rates amounting to Rs. 30,943.

The improvement of primary education in Calcutta has at last taken definite shape. The scheme will involve a capital expenditure of about Rs. 21,75,000 and a recurring expenditure of approximately Rs. 4,75,000 when in full operation.

The project provides for 15 model schools and a training college for teachers and for the gradual and systematic improvement first of the existing schools and then of the new schools that may be established in the future. Government have agreed to contribute a total sum of 17 lakhs towards the capital cost of the scheme besides undertaking to pay Rs. 10,000 a year for three years and to place at the disposal of the Corporation the annual grant that is now spent on primary schools (Rs. 30,000).

19. **Personnel.**—Mr. R. M. Chatterji, Vice-Chairman, died in January 1919. He had been Vice-Chairman since 1914; and had rendered conspicuous services to the Corporation in responsible posts for nearly thirty-two years.

Rai Charu Chandra Chatterji (Secretary) Bahadur was appointed Vice-Chairman, and in February 1921 became Deputy Chairman. The latter post had previously been held by Mr. S. K. Sawday, I.C.S., Mr. Gurner, I.C.S., and Mr. Stork, I.C.S. Mr. Donald and Mr. Payne—apart from two short periods in which Mr. Gurner acted—held the office of Chairman at different times during the triennium. The Minister desires to record his appreciation of the excellent work of all these officers and in particular to recognize once more the invaluable services rendered to Calcutta by Mr. Payne on the latter's retirement from the Corporation. He would also pay a tribute to the Municipal Commissioners who as a body have worked loyally and well for the welfare of their great city.

Secretary to the Government of Bengal (offg.).

**RESOLUTION ON THE REPORTS OF COMMISSIONERS OF
DIVISIONS ON THE WORKING OF MUNICIPALITIES
DURING 1920-21.**

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 1ST MAY 1922.

RESOLUTION—No. 2016M.

READ—

The reports of Commissioners of Divisions on the working of municipalities during 1920-21.

1. **Number of municipalities.**—A new municipality was created at Bhola (Bakarganj); the total number of municipalities in Bengal thus became 116. As, however, the new municipality did not begin work during the year the statements appended deal with statistics for 115 municipalities.

2. **Elections.**—The elective system was in force in all except five municipalities. At present under section 14 of the Bengal Municipal Act, Government appoint one-third of the Commissioners of a municipality which has the elective system. In 1919 Government decided that an experiment should be made in certain municipalities, whereby the elected Commissioners, subject to Government control, should be invited to co-opt the remaining one-third of their body. This privilege was granted to the elected Commissioners of Nabadwip, Comilla, Chaudpur and Jessore; it was found necessary to revert to the old system in Nabadwip. All except 12 municipalities have the right to elect their own Chairmen. The latter number has been reduced to five since the close of the year.

General elections were held in 16 municipalities. Little interest was shown in the municipal elections of Chandpur and Cox's Bazar, while there was no poll in any ward in Sherpur nor in one ward of Nawabganj.

Litigation in connection with the general election of the Kotrung Municipality held in 1918-19 was continued, and an appeal was preferred before the Subordinate Judge of Hooghly against the decision which the Civil Court had given in favour of the municipality. The Subordinate Judge set aside the election and passed a perpetual injunction on 17th May 1921 restraining the new Municipal Board from transacting any business. The Chairman preferred an appeal to the High Court, which has since set aside the order of the Subordinate Judge. The elections in two wards of the Maniktala Municipality and in one ward of the Basirhat Municipality were set aside by the Civil Court, appeals against which are pending in the High Court.

3. **Meetings.**—One hundred and sixty-one meetings or, on the average, one in every 14 failed for want of a quorum. The failure was most marked in Baduria where 6 out of 14 meetings proved abortive. The Commissioners of the North Barrackpore, Gobordanga and Murshidabad municipalities failed to hold monthly meetings. Eight out of 18 Commissioners of the Barasat Municipality absented themselves from several consecutive meetings, while the attendance of the official Commissioners in this and eight other municipalities in the Presidency Division^{is} reported to have been irregular.

4. **Ratepayers and voters.**—The number of ratepayers rose from 319,906 to 322,466 and the population residing within municipal limits (2,631,500) showed an increase of 57,700 according to the last census. The

ratio of ratepayers to the population averaged nearly 16 per cent. in the Presidency as a whole, and varied from 37·5 per cent. in Kumarkhali to 3·3 per cent. in Titagarh, a mill town with a large cooly population. Other towns in which rates are paid by less than one-tenth of the people are the mill municipalities of Garden Reach, Bhatpara, Garulia, Champdani and Bhadreswar as well as Darjeeling and Narayanganj.

5. Assessment and taxation.—The average incidence of taxation per head of population was Rs. 2-11-9 showing a slight falling off, which is due to an increase in population according to the last census. The incidence is highest in the suburban municipality of Cossipore-Chitpur (Rs. 9-7-2). Next come the hill stations of Darjeeling (Rs. 8-8-4) and Kurseong (Rs. 7-0-11). In only two other towns (Howrah and Chittagong) it is above Rs. 5 while it is below Re. 1 in 31 municipalities or nearly one-fourth of the total number, falling in two cases to below 8 annas a head.

A general or partial revision of assessment was made in about half the number of municipalities; the net result being an increase of Rs. 3,17,209 in the municipal demand of the Presidency as a whole. In Cossipore-Chitpur the net increase of revenue amounted to Rs. 22,601, of which more than half was due to the assessment of new jute godowns. Maniktala, Burdwan and Barisal secured each an increase of more than Rs. 10,000 while in Bally an enhancement of the rate of taxation in three out of four wards brought in an additional income of Rs. 17,451. The revision of assessment in Kurseong in subject to the result of no less than 200 appeals, but the Chairman expects an increase of Rs. 6,000 in municipal revenue. A water-rate and tax on arable land were imposed for the first time in Nator and Sherpur, respectively. In the former town the tax on persons which had been in force in 5 out of 12 wards was replaced by a rate on holdings.

6. Collections.—There was a satisfactory increase of Rs. 2½ lakhs in collections, the percentage on the current demand rising from 90 to nearly 96. In 13 municipalities the collections were equal to or in excess of the current demand and in 17 they were over 99 per cent. On the other hand, the ratio was under 85 per cent. in nine municipalities, falling as low as 66 per cent. in Bally. Garulia and Nalchiti alone collected the full demand without any remission. The amount of remissions was small, than in previous year and represented 2·5 per cent. on the current demand. The small municipality of Debhatta remitted more than quarter of its current demand while five others, viz. Kharar, Bansberia, Bally, Halisahar and Taki, remitted more than 10 per cent. Except in the case of Bansberia where remissions were granted on account of vacant holdings and exemptions allowed on account of altered circumstances of ratepayers, no explanation has been given for the high percentage of remission.

The returns show that there is a growing tendency to allow municipal revenue falling in arrears. In the Presidency as a whole, the balances outstanding at the close of the year amounted to Rs. 7,06,896 against 6 lakhs in the previous year and Rs. 5,40,076 in the year 1918-19. The Minister for Local Self-Government regrets to observe that the accumulation of such heavy arrears reflects credit neither upon the Municipal Commissioners nor upon their executive. Howrah shows the largest balance outstanding (viz., Rs. 2,11,780) and although an explanation has been given, the real reason for this heavy accumulation seems to be the weakness of the municipal executive in enforcing punctual payment by resorting, where necessary, to coercive measures which were adopted only in five cases. Other municipalities which had unduly large outstandings were Cossipore-Chitpur, Mymensingh, Bally, Dacca, Hooghly-Chinsura, Burdwan and Chittagong. In the case of the first named municipality the balance of Rs. 65,000 was mainly due to the non-payment of taxes due from the Eastern Bengal Railway, but in other cases no satisfactory explanation has been furnished. By a mistaken leniency towards defaulters, the Commissioners frequently impose a heavy handicap on their administration; the Minister trusts that prompt and vigorous measures will be taken to collect arrears. On the other hand, four

municipalities had no outstanding balances while in ten other cases they were less than Rs. 100.

7. Income and expenditure.—The total receipts including opening balance fell from Rs. 98,29,204 to Rs. 97,43,540; the decrease under the heads "Opening balance" and "Grants and contributions" counterbalancing the increase in receipts from taxation. Expenditure also fell from Rs. 81,33,115 to Rs. 74,26,217, mostly under the head "Public health and convenience."

8. Closing balances.—The closing balances rose from Rs. 17 lakhs to Rs. 23 lakhs; a large portion of this represents unspent grants and loans received from Government for improvement schemes, such as water-supply, drainage and sewerage, and includes the credit balances of special funds (e.g., water, lighting, hackney-carriage and dispensary). About one-third of the total number of municipalities closed the year with a balance exceeding one quarter of the total expenditure. On the other hand, a number of municipalities failed to keep adequate working balances and in 13 cases they were insufficient to meet outstanding liabilities. Debhatta with an ordinary expenditure of Rs. 3,000 had a balance of Rs. 51 only while Satkhira with an expenditure of more than Rs. 9,000 closed the year with the exiguous sum of Rs. 43 in hand and with a liability of Rs. 492. In the case of Mymensingh, Muktagacha, Tollygunge, Barasat and Baduria the outstanding liabilities exceeded largely the closing balances. The worst offender was Muktagacha which had outstanding liabilities of Rs. 4563, or nearly half of its current demand against, an actual balance of Rs. 574.

9. Education.—The amount spent on education, including the Government grant of Rs. 1,06,056, was Rs. 2,83,955 or about 3½ per cent. of the municipal income as against 4·2 per cent. in the preceding year. The expenditure on primary education fell from Rs. 1,34,221 to Rs. 1,28,713, but it is satisfactory to note that only 13 municipalities, as against 22 in the previous year, failed to spend at least 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the percentage was over 5 per cent. in 53 municipalities and over 10 per cent. in 5.

The Rangpur Municipality resolved to levy an education cess under the Bengal Primary Education Act of 1519, and the Municipal Commissioners of Darjeeling decided to establish two primary schools, viz., one for boys and the other for girls, each to accommodate 300 students, and received a Government grant for the construction of the boys' school during the year. A model building, which will be a credit to the town, is now under construction. The Chandpur Municipality approved of the scheme drawn up by Mr. E. E. Biss regarding voluntary primary education.

10. Water-supply.—The waterworks at Mymensingh and Noakhali were completed during the year. Additions were made to those at Dacca and Burdwan. Considerable progress was made with the Midnapore waterworks. A scheme for the improvement of the Darjeeling waterworks was sanctioned by Government and is in progress. Schemes for the extension of the water-supply at Serampore and for the installation of a piped supply in one ward of Naihati were sanctioned. A modest scheme was also sanctioned for Patuakhali; a Government grant of Rs. 10,000 was made to meet the cost of sinking an experimental bore hole in connection with the scheme. A loan of Rs. 1,00,000 was granted by Government to the Krishnagar Municipality for the execution of its waterworks scheme. Projects for water-supply at Rishra-Konnagar, Faridpur, Ranaghat, Nabadwip and Bogra were prepared, but were not taken in hand on account of financial difficulties. Water-supply projects for certain other municipalities are under preparation.

The resources of many of the municipalities in Bengal are too limited to permit of their undertaking costly water-supply schemes. It is, however, believed that satisfactory schemes of a cheaper type, based on artesian borings or tube-wells, can be devised for the smaller towns, and Government

propose to purchase a boring plant for this purpose. In some municipalities the water-supply is obtained from tanks; where this is the case, it is clear that the Commissioners should be most vigilant and active in their measures to reserve the tanks.

11. **Drainage.**—The drainage scheme for Budge-Budge was in progress. Administrative approval was given to the drainage project for Krishnagar and a portion of Rangpur. A detailed scheme for improving the drainage of Basirhat was under the consideration of the Sanitary Board. The Municipal Commissioners of Hooghly-Chinsura, Serampore and Suri could not take up their drainage schemes for want of funds. Minor works were carried out in Bally, Bankura, Khulna, Chittagong, Comilla, Darjeeling and Dinajpur.

12. **Conservancy.**—The conservancy charges were about Rs. 5½ lakhs in excess of the receipts from latrine fees which were levied in all but 16 municipalities. Certain municipalities in the Presidency Division derived income from the sale of nightsoil and the levy of rents for the surplus land of trenching-grounds.

The sewerage scheme for Kurseong was completed and that for Dacca was in progress. Sewerage schemes for which the local mills contributed liberally were prepared for Naihati and a portion of Kamarhati. It is hoped that Government sanction may shortly be accorded to the important Titagarh scheme. A scheme for Bhatpara, which is also of the first importance, is under preparation.

13. **Public health.**—It is a good sign that for the past few years almost all municipalities have been taking measures to improve sanitation by filling up or clearing insanitary tanks and ditches and by removing jungle.

Effective steps were taken to prevent the spread of cholera and small-pox which broke out in several municipalities in the Dacca and Rajshahi Divisions. Faridpur offered a reward for information of the first case of these diseases so that the Sanitary Inspector might immediately visit the locality, trace out the source of infection and adopt necessary measures for disinfection.

Influenza was responsible for no less than 262 deaths in Darjeeling. Vigorous steps were taken to cope with the epidemic, and the special medical staff had considerable success in their efforts to induce infected persons to proceed to the hospital, so as to secure a certain amount of segregation and more efficient treatment. Influenza tabloids were distributed gratis by Dinajpur, Azinganj and Jessore. Many municipalities distributed quinine among the poor people.

Vaccination depôts were opened in different parts of Naihati and several suburban municipalities. Additional vaccination staff, male and female, was employed in Dacca and Narayanganj. House-to-house vaccination, free of charge, was carried out in Dacca to popularise vaccination.

In the Burdwan Division all municipalities with one exception employed the requisite number of Sanitary officers. Rajpur and Kamarhati failed to appoint Sanitary Inspectors while the post of Health Officer remained vacant in Krishnagar, Chittagong and Barisal owing to the lack of qualified officers.

By-laws were framed by a number of municipalities for the eradication of water-hyacinth, and notices under section 200 of the Bengal Municipal Act were issued by some to remove this pest from tanks and waterways.

14. **Public works.**—The percentage of the outlay on public works to the total expenditure varied in the smaller towns from 2·1 in Birnagar to 56·9 in Taki and in larger municipalities from 5·4 in Kurseong to 30·4 in the South Suburban Municipality. The new town hall and municipal office in Darjeeling was completed.

15. **Loans.**—Loans amounting to Rs. 3½ lakhs were granted to five municipalities. Altogether 43 municipalities were in debt to Government; their total liabilities at the end of the year amounted to more than Rs. 40 lakhs.

16. **Audits and embezzlements.**—The accounts of almost all municipalities except Berhampore and Chittagong were audited during the year. No case of embezzlement was brought to light except a few cases of temporary misappropriation. The collection accounts of the Burdwan Municipality were in a chaotic state, and a Sub-Deputy Collector was deputed to remedy the defects disclosed.

17. **General Remarks.—Burdwan Division.—Howrah.**—The total ordinary income of the municipality fell from Rs. 13,58,278 to Rs. 13,54,719 while the total expenditure declined from Rs. 12,94,332 to Rs. 11,85,664. The decrease in expenditure occurred mainly under the head "Public health and convenience" owing to the restriction of repairs to roads imposed by the dearth of metal. The current demand on account of municipal taxes rose from Rs. 12,16,985 to Rs. 13,25,459. The latrine fund had been working at a deficit since 1917-18, and the Municipal Commissioners resolved to revise the scale of latrine fees with effect from the 1st April 1921. The scheme for the improvement of waterworks could not be taken up for want of funds, and the Municipal Commissioners have resolved to approach Government for a loan for the purpose. Analyses of the filtered water show the supply to be on the whole good and pure. Conservancy was as before carried on for the most part under the supervision of ten ward committees. Difficulties were experienced in the recruitment of sweepers and other menial staff. The anethers and sweepers went on strike and their wages had to be increased, entailing an additional burden of about Rs. 50,000 on the latrine fund. Owing to want of funds the proposal for the removal of Nandibagan trenching-ground has not taken any practical shape. A sum of Rs. 45,764 was spent on the maintenance of stone and brick roads against Rs. 81,636 in the previous year. Out of 68·69 miles of metalled roads, 5·13 miles were metalled during the year against 20·33 miles in the previous year; the programme of road repairs was held up owing to the difficulty of obtaining metal. Health conditions in the municipal area, though a little better than in the preceding year, cannot be considered satisfactory. The birth-rate was 20·20 per mille against 21·78 while the death-rate was 43·08 per mille against 57·86 of the preceding year.

• 18. The administration of the Burdwan Municipality continued to be vested in a body of nominated Municipal Commissioners, who, however, are said to have shown as much vigour and zeal as though they were responsible to a vigilant and informed electorate. Conditions are not favourable to efficient administration. The town is hemmed in between the Damodar embankment and the embankment of the East Indian Railway, dotted over with innumerable tanks in various stages of preservation, and is therefore naturally a hot-bed of malaria. Practically no systematic attempt has been made in the past to tackle this disease, the Commissioners having concentrated their efforts on securing a good supply of filtered water and thus obtaining immunity from water-borne diseases. Nevertheless much has been accomplished, and the foundations of further progress have been laid. In particular, the Commissioners have brought about a substantial reduction of a large volume of arrear demands.

The towns of Asansol and Raniganj suffer in some respects from their situation in the coalfields and the proximity of large industrial works. The year under report witnessed much labour unrest, with the result that the menial staff of these municipalities showed a hankering for less work and more pay. The consequence was an increased burden on the municipal finance while the conservancy service was very indifferent. There was an unfortunate cleavage between the railway representatives on the Asansol municipal board and the Indian municipal commissioners, the latter opposing the compromise whereby on the extension of the elective system the railway settlement is to be made a self-governing ward with an income of its own while the railway officials passed several resolutions in favour of lavish expenditure which, had they been brought into effect, would have made the municipality bankrupt.

In Chandrakona, faction spoils to a large extent any possibility of good work; the Chairman and Vice-Chairman have been frequent absentees from the meetings. As regards the Midnapore Municipality Mr. Cook observes:—

“The executive has exercised their power on more than one occasion in a manner detrimental to the interest of the ratepayers. In one case, it was proposed to lease out to a private individual a public roadway leading to an old established bazar, thereby cutting off access to this bazar of a large part of the townfolk living to the west of the roadway.”

19. **Presidency Division.**—The Magistrate of the 24-Parganas criticizes the municipal administration of several towns in his district, such as Tollygunge, Panihati, Jainagar, South Dum Dum, Barasat, Baduria, Gobordanga, Halisahar, etc.; but, on the other hand, the Cossipore-Chitpur, Baranagar, Garden Reach, Titagarh, Bhatpara, Naihati and Baruipur municipalities are said to do good work and to be steadily improving local conditions. Steady progress is being made with schemes for water-supply and sewerage in Naihati, for sewerage in Titagarh and for flood-flush drainage in Budge Budge.

Mr. Prentice points out that the provision of an improved water supply for Cossipore-Chitpur is of great importance not only from the sanitary point of view but also from the point of view of public safety. A scheme for an unfiltered water-supply for purposes of fire-control has been suggested; but, as he points out, the Commissioners are naturally reluctant to commit themselves to the dual system while there is any chance of obtaining a sufficient supply of filtered water for all purposes, *e.g.*, under a satisfactory riparian water-supply scheme. “The position in Budge Budge is more difficult, as it is a long way south of Calcutta, and the supply of water from a central scheme might be expensive. However, the Commissioners have decided to ask the Chief Engineer, Public Health Department, Bengal, to frame a scheme for their consideration, and his proposals are awaited. Unfortunately the deep tube-wells that have been so successful in mills at Titagarh and elsewhere have not proved such a success in Garden Reach and Budge Budge; otherwise there might have been a fairly simple solution of the difficulty.

“The most important problems of municipal drainage in the district of the 24-Parganas are bound up with the fortunes of the Grand Trunk Canal scheme which for years past has held up schemes for the improvement of the drainage of Maniktala, Cossipur-Chitpore and part of South Dum Dum as well as of those of the riparian municipalities whose drainage it was proposed to lead into the Bagjolla khal.

“There has been considerable improvement in the market of Panihati and in one or two markets in Baranagar. But there are still complaints about the failure of the owners of the Garulia market to comply with the requisitions of the Municipal Commissioners. The condition of the market in Joy nagar and Gobordanga is a good example of how the public welfare is subordinated to private interests.”

“More vigorous action is desirable in the improvement of insanitary *bustis*. Practically no schemes under section 245 of the Act are under preparation in any of the municipalities in this district, and yet some of the *bustis* to be seen in some of the best municipalities are insanitary in the extreme.

“There is great need for the more effective personal supervision of the municipal staff, indoor and outdoor, by the local executives of many of the municipalities in this district.”

The Khulna Municipality in general is doing its best for the health of the town, but is handicapped by want of funds.

Among other minor municipalities in the Presidency Division the most striking features of the year were the prevalence of strong party faction in Azimganj, so that opposition was not always honest, the practical bankruptcy

of Sathkhira after the inauguration of the water-supply, the reluctance in Jessore to issue warrants of distress, and the temporary failure of the Berhampore water-supply owing to shortage of coal.

The Commissioner of the Division observes :—

“Bad administration is too often at fault owing to the failure of the executive to make full use of their powers of coercion under the Act so as to remove common defects without cost to municipal funds. Though the main difficulty is want of money, the result for the money spent is in default of proper supervision not always the best. Without the growth of a strong public opinion supporting sanitary measures and vigorous control there can be no marked improvement under present conditions.

Nor do I see signs of any new spirit looking for a leader to carry broader views into effect. Even if a committee does not dare to face the capital outlay I find no bias in favour of private enterprise in matters of public concern. And yet in the matter of lighting or water-supply, private companies might be expected to come forward if they be given proper encouragement.”

20. **Dacca Division.**—The Commissioner observes that it is difficult to find in most of the municipalities persons able and willing and with sufficient leisure to perform the work of Chairman and Vice-Chairman. The average work turned out is, however, in his opinion, fair. Mr. Lindsay, the Magistrate of Dacca, writes as follows as to the working of the municipalities in his district :—

“The municipalities have shared in the difficulties universally caused by high prices, but they have carried on their services without loss of efficiency. In both cases, however, they handicap themselves by bad collection of rates in spite of the ample powers given them by law. Commissioners themselves are often among the defaulters and are only too ready to intercede for defaulters among their constituents. Against these the municipal staff does not dare to take drastic action with the result that almost three-fourths of the collection are realised in the last quarter, and even when collections have been good, as in this year, 7 per cent. of the current demand is in arrear compared with $\frac{1}{2}$ per cent. in England. Municipal work could be carried much more easily if only collections were made promptly and fearlessly. This can only be done by making the Commissioners personally responsible for these collections as is the case with most local authorities in England.”

21. **Chittagong Division.**—The administration of Chittagong has not much improved. The roads generally are badly kept up, but considering the high cost of brick material and the expense of running the waterworks nothing else could be expected. Besides there are said to be so many parties among the Municipal Commissioners that it is a difficult task to carry any measure through at a meeting. Considerable improvement was effected in the financial position of the Comilla Municipality. The Commissioners of Chandpur deserve credit for adopting the scheme of voluntary primary education, but they have lately shown a deplorable tendency to interest themselves in party politics to the detriment of their administrative efficiency.

22. **Rajshahi Division.**—The Magistrate of Rajshahi observes :—

“Rampur-Boalia Municipality has been the subject of unfavourable comment annually for some time, and I see no indications of improvement. Their finances are in a deplorable state, and I can only attribute this to an entire lack of any desire for improvement. I am convinced that a little energy and personal attention would set the municipality on its legs, but these appear to be far to seek. The auditor's reports for some time past have drawn attention to persistent irregularities which the Commissioners apparently do not trouble to correct. Conditions at Nator are better.”

There is said to be a lack of any real civic spirit in the three municipalities in Malda.

The collections were very unsatisfactory both in the Pabna and the Serajganj municipalities. There is also no proper increase in taxation. Neither of the municipalities has taken steps to introduce the holding rate. Until this is done there is little hope of improving the municipal finances. Roads are said to be neglected and proper steps are not taken to improve the drains.

The Deputy Commissioner of Darjeeling writes as follows :—

“The municipality of Kurseong is much indebted to Mr. Addis, the Chairman, for the ungrudging way in which he has spent his time and energies in carrying on its business. It is uphill work. Kurseong has a piped water-supply, and its sewerage scheme is nearing completion. Its lighting is poor, its market (a private property) is in a congested locality, its arrangements for the slaughter of cattle and for the sale of meat are most defective, its surface drainage owing to deficient flushing is bad and the majority of its houses have grave sanitary defects. The income of the municipality is insufficient to finance an adequate loans programme, and there seems little prospect of the rateable value of the town increasing unless the town can be popularised by the development of vacant lands (private property) for building sites. Mr. Addis has proposed, with the small margin of income over expenditure which the revised assessment is yielding, to raise a loan for the construction of a modern meat market and slaughter-house while the possibility of embarking on an electric lighting scheme is under consideration.”

The Commissioners of Darjeeling are reported to have shown considerable interest in the discharge of their duties and to have assisted in the smooth working of the municipality. Commissioners as a body are said to be the progressive and anxious to improve the amenities of their town, which is fortunate in the public spirit and mutual co-operation of its municipal representatives. The Commissioner of the Division observes that no less than three of the municipalities in the division had absentee Chairmen during the year under report ; it seems to be a serious mistake to elect as Chairman a person who is likely to spend most of the year outside the limits of his municipality.

23. The names of the following Chairmen and Vice-Chairmen have been specially brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them, and the Government in the Ministry of Local Self-Government desire to express their appreciation of the public spirit shown by them :—

**RESOLUTION ON THE REPORTS OF COMMISSIONERS OF
DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN
BENGAL DURING THE YEAR 1920-21.**

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVT. DEPARTMENT.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 1ST MAY 1922.

RESOLUTION No. 2015 L.S.-G.

READ—

The reports of Commissioners of Divisions on the working of District Boards in Bengal during the year 1920-21.

District Boards.—A further stage was reached in the withdrawal of official internal control over District Boards. In the preceding two years all but five District Boards secured the right of electing their own Chairmen; in the year under report this privilege was extended to the remaining five. In 20 boards the elective element was raised from one-half to two-thirds while the boards were also enlarged. The Darjeeling Road Cess Committee is giving place to a District Board on a popular basis, with three Local Boards, which are likely to possess a large measure of financial independence.

2. **Local Boards.**—The membership of Local Boards was increased, while three new boards were established. These bodies maintain village roads and are responsible for village sanitation, where these duties have not been transferred to Union Boards. In the Burdwan district they were also in charge of ferries and primary education; in Nadia they are also responsible for the maintenance of masonry wells. There is a tendency to transfer the functions of the Local Board to the new Union Boards, and in Burdwan, we are told, that as a result of this transfer frequent meetings on the part of the Sadar Local Board proved unnecessary. The place of the Local Board, if it is not to be eliminated in the framework of the local self-government system, will be a matter of cardinal importance when the amendment of the Local Self-Government Act is undertaken.

3. **Village Self-Government.**—A forward policy in the creation of Union Boards was accepted by Government, and by the close of the year nearly 1,600 Union Boards had been formed. Few will doubt that this movement—if it succeeds—is fraught with important issues in the political life of Bengal. There have been many failures, but some of these village committees, especially in the Dacca district, have shown vitality and energy, which are a hopeful augury of the growth of public spirit and civic responsibility. Some District Boards have taken a keen interest in the welfare of these new bodies; in Burdwan district over half a lakh was contributed towards their expenses from the district fund.

The District Boards, however, find their own resources quite inadequate for their expanding functions, and the success of the Union Boards must depend largely on their willingness to utilize their power of taxation. It is contended that the villagers cannot afford to pay taxes for the improvement of their unions, and it must be admitted that experience has not yet justified the

optimism, which held that the villager was shrewd enough to pay, if he saw that he was obtaining good value for his money in the shape of improved communications and sanitation.

The number of Union Committees declined in proportion as they gave place to Union Boards, but there were still 309 Union Committees working at the end of the year. In the Presidency Division the Rajibpore Union Committee, 24-Parganas, is singled out for special praise; its record of works shows the benefits which a public-spirited Chairman can obtain for the group of villages in which he labours. In reviewing Village Self-Government as a whole the Minister (Local Self-Government Department) feels constrained to travel beyond the annals of 1920-21 in referring to the deplorable set back, which the tender growth of village committees has of late received at the hands of the non-co-operator. In Midnapore district there was an organized campaign against the new Union Boards, and as Government had no desire to force these institutions on the villagers against their will orders have recently issued for the withdrawal of the Union Board system in that district. The old chaukidari panchayats have replaced them, and the clock has unfortunately been set back.

4. **Financial results.**—The receipts from all sources amounted to Rs. 122·7 lakhs against Rs. 129 lakhs in the preceding year, the decrease being mainly due to smaller receipts under deposits and advances and miscellaneous heads. There was also a corresponding decrease in the total disbursements which fell from Rs. 130·7 lakhs to Rs. 122·7 lakhs. The excess of current income over current expenditure amounting in the previous year to Rs. 38,000 was reduced to a deficit of about Rs. 4·8 lakhs. The closing balance at the end of the year amounted to Rs. 31·8 lakhs.

5. **Taxation.**—The incidence of taxation averaged 2 annas 6 pies a head for the whole Presidency, and varied in different districts from 1 anna 7 pies to 6 annas 8 pies.

6. **Education.**—The expenditure on education rose from Rs. 26·7 lakhs to Rs. 28·5 lakhs, and excluding the contributions received from Government and other sources and the fees and miscellaneous receipts, the sum contributed by District Boards from their own funds rose from Rs. 9½ lakhs to Rs. 11·3 lakhs. The Minister for Local Self-Government observes with satisfaction that the increase was mainly due to the greater attention paid by most District Boards to the expansion of primary education in rural areas. The number of upper and lower primary schools maintained and aided by District Boards rose from 37,871 to 39,078, of which 29,936 were boys' schools and 9,142 girls' schools; those actually maintained by the Boards increased from 2,909 to 3,010. Schemes for the development of primary education on the lines suggested by Mr. Biss were sanctioned for three unions in the district of Khulna, and a grant of Rs. 8,000 for capital expenditure was made by Government towards the execution of the schemes. Female education made a satisfactory stride during the year; the number of schools increased by 600 and the number of pupils by 9,000. A sub-committee of seven lady members was formed in Khulna to advise the District Board in matters relating to the education of girls. Technical and industrial education continued to receive special attention. Two new weaving schools were started with the aid of District Boards, viz., one at Midnapore and the other at Tantipara in Birbhum. The District Board of Khulna also decided to open a district weaving school as an experimental measure.

7. **Medical relief and public health.**—The expenditure under these heads aggregated Rs. 11·7 lakhs against Rs. 10·5 lakhs of the preceding year. In nearly all districts definite programmes have been laid down for the gradual extension of dispensaries, and 22 new dispensaries were established during the year, making a total of 304. Two hundred and twenty-six dispensaries were in receipt of grants-in-aid from District Boards amounting to Rs. 2·77 lakhs. No dispensaries were maintained by any of the Boards in the Chittagong Division, which however, made grants-in-aid amounting to

Rs. 1.13 lakhs to 55 dispensaries. Eleven temporary dispensaries were maintained by the Burdwan District Board and three by the Birbhum District Board to combat epidemics of malaria and cholera. The opinion is gaining ground that District Boards should cut adrift from the long-accepted policy of constructing dispensary buildings of the old expensive type; the means for affording relief to the masses can be quickly multiplied if it is once admitted that buildings of the cheap type on which private dwellings in rural areas are constructed may serve as efficient centres for a medical agency. The Midnapore District Board's scheme for providing a network of dispensaries on these lines within the next ten years commends itself to the Minister and steps are being taken to modify the rules under which buildings must at present be designed after a costly standard type.

In Khulna 20 anti-malarial leagues were established under the general control and guidance of the Health Officer. The members are enrolled as unpaid voluntary workers in the anti-mosquito campaign and the distribution of quinine. The subsidization of medical practitioners—initiated in Jessore—was approved in Midnapore, Howrah, Khulna and Dacca; in the Midnapore district four doctors, who each receive from the Board a subsidy of Rs. 35 per mensem *plus* Rs. 5 as house-rent, have now begun work. In the 24-Parganas subsidies of Rs. 30 per mensem were offered, but no doctors could be obtained; a similar report comes from Nadia, where subsidies of Rs. 35 per mensem were offered. In Dacca five doctors were obtained on subsidies of Rs. 35 per mensem; they are required to visit schools within a radius of 5 miles of their centres in order to give simple courses of instruction on personal hygiene and sanitation. In Jessore the Board has been able to withdraw its subsidies from established practitioners, but owing to the reduction of the rates of subsidies no suitable doctors were available for the new centres. The establishment of an *Ayurvedic* dispensary by this District Board attracted great interest. It is reported to have made some mark as a medical institution suitable for the treatment of chronic diseases.

The usual petty sanitary works, such as the removal of jungle, clearing roadside and village drains, filling up insanitary ditches, etc., were carried on through the agency of Local Boards, Union Boards and Union Committees.

In India the deplorable waste of life from preventable diseases is a commonplace, and in the Howrah Sadar subdivision a demonstration of anti-cholera measures was carried out at Government cost. The experiment is thus described by the Commissioner:—

“Six sanitary inspectors were placed in six thanas with a sub-assistant surgeon as their supervisor, while the entire operation was in charge of the Health Officer. The inspectors were provided with bleaching powder, hycol, cholera literature and cholera posters. They visited police-stations once a day and as soon as they came to know of any outbreak of cholera they proceeded at once to the spot and disinfected rooms, buildings, soiled cloths, etc., while they also gave the occupiers of the house and the neighbours necessary instructions and sterilised tanks with bleaching powder where necessary. They distributed cholera literature among the people and published posters at prominent places dealing with the causes and prevention of cholera. The inspectors tried to get information from all available sources and principally through the Presidents of Union Boards, the idea being to check the disease in the very beginning.”

It is reported that since the commencement of the campaign the death-rate from cholera has been appreciably reduced. Measures of this kind cannot, however, be at once improvised when epidemics occur; it is desirable that District Health Officers should prepare the way for such campaigns well in advance by constant anti-cholera propaganda and by dealing promptly with small sporadic epidemics. If the efficacy of preventive

measures is thus demonstrated throughout the year, it will be easier for a special staff to work on a larger scale, when more severe epidemics occur. Temporary itinerant doctors such as were employed in several parts of the Rajshahi Division, if their activities are properly organized and trained, form a useful nucleus for a special staff of this kind. The Minister is glad to find that District Health Officers have to some extent realized the paramount importance of simple public health propaganda at the present time. In Birbhum pamphlets containing instructions for the prevention and treatment of cholera, small-pox and influenza were distributed through the agency of the Presidents of Union Boards, and in Bankura doctors were deputed to inspect and treat pilgrim traffic from Puri.

During the year the Vaccination Act was extended to all the areas administered by the District Boards in the Burdwan Division, and the system of free vaccination was in force in the districts of Burdwan, Birbhum and Howrah. The Health Officer, Howrah, held several magic lantern demonstrations to explain the benefits of vaccination to the masses. The Mymensingh District Board had a staff of 56 vaccinators including 4 women operators to attend to the *pardanishin*. Considerable attention was paid to vaccination in the Patuakhali subdivision, the number of persons vaccinated including those vaccinated in the preceding year was about 32 per cent. of the population.

As regards works of sanitation, it is noteworthy that the Bakarganj District Board spent no less than Rs. 52,248 in the excavation and re-excavation of khals; this work is said to have had a marked effect on the sanitation of the areas concerned.

General.—On the whole, there seems ground for believing that local bodies have a keen appreciation of their obligations in the matter of public health, but the inadequacy of their funds is a constant handicap. The Minister is glad to observe a general tendency amongst District Boards to concentrate their activities on the following lines :—

- (1) an extension of medical relief by the creation of new dispensaries and the subsidizing of rural doctors who require aid until they can build up a practice;
- (2) the organization of preventive measures, combined with treatment, in the case of epidemics;
- (3) the improvement of vaccination work; and
- (4) public health propaganda, in which Health Officers should take a leading part.

He is satisfied that on these lines much valuable work can be done, and has now under consideration the question of the extent to which Government can assist the Boards in these matters.

8. **Veterinary.**—The charges under this head amounted to Rs. 1,36,000 against Rs. 1,12,000 of the preceding year. The veterinary assistants continued to do useful work by visiting villages affected by cattle disease and treating the cattle in villages and at hospitals. There were outbreaks of cattle diseases in the districts of Bankura, Midnapore, Bakarganj and Jessore. In Bakarganj there was a severe outbreak of rinderpest which carried off thousands of cattle and crippled the cultivators. A veterinary inspector has recently been placed in charge of this district and of the Khulna and Jessore districts by the Veterinary Department. In Nadia and Khulna veterinary committees were formed by veterinary assistants with a view to secure co-operation in their work.

9. **Civil works.**—The total expenditure under this head, which includes the sums spent on water-supply and drainage, rose from Rs. 60.3 lakhs to Rs. 61.6 lakhs. The outlay on buildings and tools and plant increased by 2.5 lakhs, but that on communications and water-supply decreased by Rs. 1.6 lakhs and 1.2 lakhs, respectively. The decrease was in some cases due to

scarcity of labour, but its main cause was the shortage of railway wagons which rendered it impossible to obtain either metal for the roads or coal for burning bricks. As was to be expected under these conditions, there were large lapses amounting in Birbhum and 24-Parganas to nearly one-fourth of the total allotment for civil works. The District Boards of Howrah and Khulna allowed over 19 per cent. of the allotment to lapse and four other Boards, viz., Burdwan, Midnapore, Jessore and Noakhali had lapse of over 15 per cent. of the allotments. Taking the figures for the province as a whole the proportion of lapses rose from 11 to 12 per cent.

10. **Communications.**—The growth of water-hyacinth has increased to an alarming extent. By-laws were framed by several District Boards to secure the removal of this pest; some District Boards served notices on persons requiring them to remove the weed from their tanks or ponds, but the notices proved ineffective. A resolution was therefore passed by the District Board Conference of 1921 to the effect that Government should undertake legislation at once for the eradication of this nuisance in consultation with the Government of Assam. It is understood that the Assam Government is not at present prepared to take measures chargeable to provincial revenues; in Bengal a Committee has been appointed to advise Government on this matter.

Particular attention was paid by the District Board of Hooghly to the prevention of encroachment on roads. About 114 encroachment cases were reported by subordinate officers; in each case the encroachment was removed.

11. **Water-supply.**—The total expenditure amounted to about Rs. 5·8 lakhs, of which Rs. 5 lakhs were spent on original works. Taking the Presidency as a whole, the percentage of the Public Works Cess receipts spent on water-supply fell from 20 to 16·7 per cent., the decrease being most marked in Nadia, 24-Parganas, Mymensingh, Bakarganj, Noakhali and Bogra. On the other hand, there was a marked improvement in the districts of Bankura, Tippera, Hooghly, Murshidabad and Chittagong: in the two districts first named the percentage was more than 24 per cent. against 9·4 and 8·4, respectively, in the previous year. In Midnapore, where also the percentage showed a slight increase, the District Board allowed a large allotment to lapse mainly through the dilatory execution of works and delay in determining the rates at which labour should be paid. Tanks started in this district in 1919-20 remained unfinished even at the end of the year under review.

As in the preceding year, the whole of the amount spent on water-supply was met from current revenue, and the reports do not show that any District Board has considered seriously the suggestion made last year that capital works of this kind should be financed from loans.

12. **Drainage.**—The expenditure under this head amounted to Rs. 1·4 lakhs, of which Rs. 1·1 lakhs represented the expenditure incurred on account of the Jaboona project in Nadia and the Arool bil scheme in Jessore. The Nowi-Sunthi and the Jaboona projects were taken up by the District Board of the 24-Parganas. All these projects are under execution by the Public Works Department of Government. In other districts drainage works were confined chiefly to clearing roadside drains, re-excavating and deepening khals and the construction of bridges and culverts.

13. **Relief works.**—The expenditure fell from Rs. 1,65,000 to Rs. 7,000, of which Rs. 3,000 was spent by the Khulna District Board and the balance by the Noakhali District Board. No other District Boards had to undertake relief measures, a fact which indicates the absence of famine conditions in the province during the year. There were heavy floods in Midnapore, particularly in the Tamruk subdivision, which rendered many people homeless and caused acute distress. The District Board co-operated in the measures undertaken to relieve the distress.

14. Closing balance.—The actual closing balances decreased from Rs. 23·27 lakhs to Rs. 17·67 lakhs. Although the Burdwan District Board succeeded in reducing its balance by Rs. 1·75 lakhs, it closed the year with a balance of Rs. 2·64 lakhs for nearly half of which the Asansol Local Board was responsible. This is attributed to the difficulty of getting materials and also to the abnormal rise in the wages of labour. The accumulation of Rs. 2·62 lakhs in the case of the 24-Parganas is chiefly accounted for by the large unspent balances of the Government grant of Rs. 2 lakhs for the Nowi-Sunthi drainage scheme and of Rs. 59,041 for the improvement of the Jaboona river. The Rajshahi District Board reduced its balance by Rs. 50,000 to Rs. 17,766 and the balance in Chittagong decreased from Rs. 84,894 to the unduly low figure of Rs. 569. The Tippera, Faridpur and Dacca District Boards closed the year with debit balances of Rs. 16,221, Rs. 9,172 and Rs. 5,888, respectively, indicating overdrawals on the District Funds. In Faridpur and Dacca this was due to an overestimate of the cess receipts and might have been avoided had the District Boards revised their budgets a few months before the close of the year. The heavy fall in Tippera from the credit balance of Rs. 1,08,000 at the end of the previous year has not been explained. On the other hand, the balances rose to more than a lakh in Bakarganj and Khulna. In the former the rise was due to an unexpected increase in the cess receipts for the expenditure of which there was no budget provision, while in the latter district it was due partly to the receipt of a special Government grant of Rs. 15,000 for educational purpose and partly to heavy lapses under "Civil Works" and "Medical." In Midnapore and Howrah the balances were also heavy amounting in each case to nearly Rs. 1·5 lakhs. No explanation has been given in the case of Howrah, but in Midnapore there were heavy savings under "Civil Works."

15. General remarks.—While the heavy balances indicate defective budgetting or the dilatory execution of work, the universal cry of District Boards is the inadequacy of their revenues for their expanding functions. Labour and materials are more expensive, while the creation of Union Boards has placed a new charge on the District Fund. Important schemes have been drawn up for the expansion of primary education, extension of water supply, adoption of a comprehensive public health policy, improvement of communication, etc., but the financial difficulty has to many Boards appeared insuperable. The adoption of a loan policy will in some cases be possible, but an expansion of revenue is also necessary, and it is difficult to devise taxation, which will sufficiently augment the resources of the District Boards without proving oppressive to the tax-payers. This question was discussed at the Conference of the representatives of District Boards held in December 1919. The Conference was opposed to any increase in the cess, but approved a proposal to levy a tax on carts, carriages and horses in rural areas. This proposal has recently been revised, and enquiries are being made as to the approximate revenue such a tax might yield and the method of its assessment and collection.

Apart from finance, the work of the District Boards, many of which were under non-official Chairmen, was on the whole satisfactory; most of the non-official Chairmen showed great interest in their important duties, and there is no doubt that the District Boards have considerable vitality and are beginning to open up a field of useful public service to many of the ablest men in the mufassal. The Commissioner of the Presidency Division observes:—

"The general impression left on my mind after inspecting the District Board offices is that with the passing of the official Chairmen who worked in one groove, there has been an improvement in the variety of projects undertaken for the good of the people. The work of the Board is more attractive to members, and each non-official Chairman is conscientiously doing his best with the time at his command in the matter of touring."
